MEDIA

Photo Timeline

Staff photos attached to the correct task and job — not loose in a chat thread.

- ✗ Job updates buried in WhatsApp group chats
- ✗ Photos forwarded with no job context
- ✗ Client approvals verbal or undocumented
- ✗ Payment follow-up done from a spreadsheet
- ✗ Owner chasing staff every morning for status
- ✗ Excel and chat used together, out of sync

- ✓ One job timeline from quote to delivery
- ✓ Quote and design approvals recorded in writing
- ✓ Staff mobile updates attached to each task
- ✓ Site photos saved to the correct job
- ✓ Client portal — progress, approvals, payments
- ✓ Action Center: know what needs attention today

BEFORE & AFTER — WHAT ACTUALLY CHANGES

✗ Before TrackFlow	✓ With TrackFlow
✗ Job updates in WhatsApp chats Photos, approvals, and questions mixed into threads with no record.	✓ One job timeline per client Every update, photo, and approval attached to the correct job.
✗ Approvals verbal or undocumented No written record of which design or quote the client confirmed.	✓ Approvals recorded & timestamped Quote and design sign-offs confirmed through the client portal.
✗ Owner chasing updates manually Daily calls to carpenters and supervisors asking for job status.	✓ Action Center shows what's blocked Pending items, overdue tasks, and open approvals visible at a glance.
✗ Payment follow-up from Excel Someone manually tracks which jobs have outstanding balances.	✓ Payment status per job Deposit, progress, and balance tracked automatically. Visible to client.
